

MALDIVES

- Maldives, in full Republic of Maldives, also called Maldive Islands, independent island country in the north-central Indian Ocean. It consists of a chain of about 1,200 small coral islands and sandbanks (some 200 of which are inhabited), grouped in clusters, or atolls. Maldives Maldives The islands extend more than 510 miles (820 km) from north to south and 80 miles (130 km) from east to west. The northermnost atoll is about 370 miles (600 km) south-southwest of the Indian mainland, and the central area, including the capital island of Male (Male*), is about 400 miles (645 km) southwest of Sri Lanka.

 With more than a thousand splendid islands and the 26 coral atolls brimming with marine life, a dive into the netherlands less ear or prawling across the sun-lounger on the powdery sand, the reasons to visit Maldives are unending; let's check out the ten below:
